

Office Memorandum • UNITED STATES GOVERNMENT

TO : Project Director, Project AQUATONE

DATE: DEC 1957

ATTN :	25X1
--------	------

FROM : Chief, Engineering Division, OC

SUBJECT: Contract #101, Ramo Wooldridge Corporation

25X1

1. This memorandum will confirm a telephone request from [redacted] of this Office concerning the subject contract.

2. It is requested that the contractor be advised that there should be no further expenditure of funds for purchase of parts or other preparation for the modification of the System II field equipment for the sub-base application prior to complete evaluation and approval of the two prototype models by government engineers.

3. It is understood that this action will require a minor modification of the contract which presently provides for purchase of parts for the entire modification program to start during December 1957.
